### STAMPEDE AT ELKTON

A successful stampede was carried out last Wednesday at Elkton which attracted a large number of competitors from the surrounding country side. Fully 2,000 spectators were present and the program started by an energetic emcee was carried through without a hitch. The winners of the various events were:

Pony race—L. J. Bellamy; 2. G. Johnson; 3. G. Yancey.

Farmer's race—J. J. Hughes; 2. M. Stringer.

Open race—J. J. Bellamy; 2. G. Johnson; 3. J. Hughes.

Relay race—J. J. Hughes; 2. G. Yancey.

Bucking contest—L. A. Moon; 2. E. Krabs.

Steak race—L. J. Johnson; 2. D. McIntyre.

Wild horse race—P. McKnight.

Roping contest—L. Clay Robins.

The barn dance held in the evening was also largely attended.

### AROUND THE TOWN

DIDSBUY FAIR—August 23, 24.

Mr. Frank Bierens returned from his holidays in Banff last week.

Miss Emma Hahn has returned from her holidays spent in Calgary.

Miss Thelma Larson and spent a few days last week with some of her friends near Carstairs.

Mr. J. Brett returned from Gull Lake on Sunday where he has been spending his holidays.

It will do you a lot of good to be a member of the Agricultural Society.

Mrs. Dr. Reid who has been visiting with Miss Mac Stader returned to Calgary on Sunday.

Mr. A. A. Bierens was a business visitor in Edmonton during the first part of the week.

The Didsbury baseball team just by way of practice, beat up the Westcott team on Monday evening.

Miss Claire Brown, of Calgary, was visiting with Miss Irene Rodway for a few days last week.

Miss Ruby Weber of the Union Bank staff is spending her holidays at the coast.

Both you and the Agricultural Society will benefit from your membership.

Additional Local news last page.

## One Dollar a Week

By regularly deducting one dollar a week from your earnings and depositing it regularly in a Savings Bank Account, you will soon accumulate a substantial balance without missing the money deposited. In five years, with interest at 3% compounded semi-annually, you will have \$280.26. In ten years your balance will be \$605.54.

## UNION BANK OF CANADA

## MILKING MACHINES

We are dealers for the MACARTNEY MILKER, which has combined in it all the most practical and sensible features which have been developed in the mechanical milker industry. See our demonstrator in action on our floor before you buy a machine.

WE CAN INSTALL YOUR MACHINE WITHIN TWENTY-FOUR HOURS after you tell us to go ahead.

G. A. WRIGGLESWORTH, Phone 41  
Didsbury

Sunday August 7th at 3 p. m.

The Children's Day program, in past at least, will be repeated on Sunday at 2 p. m. in the Evangelical Church because many who would have been present last Sunday evening could not be because of the storm.

Additional Local news last page.

### A BIG SHOWER

Thursday evening a shower of a slightly different nature than the ordinary rain shower was held in the Old Fellows Hall. Mrs. Frank Kaufman and Miss Matrona Eby were the recipients.

The shower was gotten up by some of Mrs. Kaufman's young lady friends and was well attended by many of the young people as well as the Oldfellows and Rebeccas.

A basket containing tokens of esteem from those present was placed in the middle of the floor and after everyone had arrived, Frank and Matrona were lured into the hall where they were immediately encircled and sang "For He's a Jolly Good Fellow."

A table and chairs were then set in the middle of the floor from which they were asked to occupy and J. W. Phillips endeavored to express the sentiment of the gathering. We didn't take John's speech down in short hand but you know what he said anyway, he's Irish, to which Frank on behalf of his wife and himself made a very fitting reply. They were then set to work opening the surprise packages among which were many useful and valuable articles.

Dancing and cards then filled the bill until the lights were out when the party broke up.

### CARD OF THANKS

Mr. and Mrs. J. W. Smiley and family wish to thank their many friends for their kindness and their offerings during their recent her confinement.

### MEMBER—JONES

At the Evangelical parsonage, by Rev. C. H. Huestis, D. D. Field Sec'y, of Lord's Day Alliance will speak in the Evangelical church on

Sunday and Annie May Jones, both of Eagle Hill, Alberta.

### REGULAR

## U.F.A. and Dairyman's MEETING

FRI., AUG. 12th

at 2 p. m. in the

Didsbury Opera House

G. W. GIBBS, Sec. U. F. A.  
W. J. SCHEIDT, Sec. D. A.

### NOTICE TO CREDITORS AND CLAIMANTS

RE C. K. WILLSON

NOTICE is hereby given that all persons having claims against Mr. C. K. Willson who formerly resided near Didsbury in the Province of Alberta, are requested to file with Messrs. Ford Miller and Harvey, Barristers, 207 Alberta Corner, Calgary, Alberta, a full statement duly verified of their claims and of any security held by them.

DATED this 1st day of August, A. D. 1921.

Ford, Miller and Harvey,  
Solicitors for C. K. Willson.

### NOTICE

To Alexander Bonck,  
Elkton, Alberta.

TAKE NOTICE that pursuant to Section 21 of the Mechanic's Lien Act the undersigned will sell by Public Auction on behalf of Stevens Service Shop at 3 p. m. Saturday, the 26th day of August, 1921, in the town of Didsbury, one Ford car, No. C 115639, Engine No. C 115639, belonging to you to recover a bill for labor owing against said car.

Dated at Didsbury, in the Province of Alberta, the 2nd day of August, 1921.

J. W. Phillips, Auctioneer.

## Best Butter Only Made From Clean Cream; Competition In Market Increasing Stronger.

It is estimated that there will be a production of butter amounting to fifteen million pounds during the coming season; this figure being entirely outside the amount which represents the home consumption.

## The Market

This fifteen million pounds surplus will be produced during May, June, July and August must find a market—but where? The U. S. A. and the United Kingdom do not need it. British Columbia will buy nine million pounds of it, providing it is up to the New Zealand grade. So far Alberta butter has not all been up to that grade, and if this surplus is to be marketed, it is distinctly up to the farmers of Alberta to produce the best quality of cream. No amount of business finesse or skill on the part of the manufacturers can place poor butter in a market which will take the best and none other; hence it is apparent that the question is a vital one for the immediate consideration of the cream producers.

## British Columbia's Needs

British Columbia will require nine million pounds and over, of butter this year for its own use. Provided Australia and New Zealand and other competitors were kind enough to keep their butter at home, all would be well for the Alberta producers; but unfortunately the Anti-Sedes have no intention of doing anything of the kind. Our one butter market in B. C. is still further assaulted by outside competition and a fresh antagonist has arrived in the field in the shape of the American dairyman.

Heretofore, American butter was altogether consumed in the States, but this condition has altered by reason of large importations of butter from Holland, Denmark and the Argentine which has flooded the eastern American market. Shut out of their usual market the western producers of butter have jumped into the Vancouver market and are unloading; and will unload American butter on the coast buyers; and at a price—Seattle 25 cents per pound, and Vancouver 32 cents per pound.

## Butter on Consignment

Due to the demoralized condition

of the eastern American market, Washington and Oregon—the big Pacific dairying states—are shipping their butter to B. C. on consignment; meaning that they will take any price which is offered. Although the Vancouver buyers have a warm feeling for the prairie producers they cannot afford to ignore the great difference in price.

## Only The Best Is Good Enough

Alberta cream producers are "up against it" a serious proposition, but they can "win out" if more care is taken in production. North Alberta can produce as fine a grade of butter as any part of the world, if the cream is right, and there is a very fine railway line which delivers the butter to Vancouver from Edmonton and Calgary in 52 hours. Despite the American invasion and the New Zealand and Australian importations, Alberta has many factors in her favor, and can hold this market, if the message can only be brought home to the farmers that in so far as cream is concerned nothing but the best is wanted.

## New Zealand Production

The dairy commissioner of New Zealand has just announced that the southern islands will have 25,000 tons of butter for export. The British government which was controlling food supplies in the old country through the ministry of food, announces that the United Kingdom has sufficient supplies of butter on hand for nine months and over one more million to come, which had previously been contracted for in New Zealand, Australia and the Argentine; thus shutting off Canadian imports for most of this year. The Canadian Forestry tariff says most emphatically, "You can't come here." British Columbia remains but B. C. says "Ship us nothing but the very best." If we try to put them with second grade they won't stand for it.

The New Zealand quality standard is no fictitious barrier either. All butter from the islands is subjected to a rigid government inspection, and a real one at that. It is scientifically produced, graded and manufactured, and the whole executive ability of a highly efficient business government is behind it. New Zealand butter is a "hard nut to crack" but it can be cracked. Just as soon as a large percentage of the Alberta men come to recognize that a new condition has arisen, and that any man who produces poor cream is jiving his neighbor.

## Uniform Standard Needed

New Zealand butter is always of the same high grade; it is always uniform; and Alberta butter must conform to this standard if we are to hold our own. This is the message to the farmers of Alberta from the butter manufacturers. We have no

market for poor cream." This is no cheap sarcasm, but a very real and deplorable condition. The remedy is obvious.

In the course of a conversation with one of the leading dairymen of the province, the fact developed that during the past year large quantities of cream coming from some of the foreign settlements could be placed under no category but that of "off grade." Some form of control is necessary to see that the rules of cleanliness are observed.

## Quality Counts

It is very apparent that some form of production supervision is necessary to educate many of the rural dairy farmers to the necessity of cleanliness and science in the handling of their cream, in order to obviate the present production of large quantities of particularly low grade butter.

New Zealand, Australia, the United States and many other countries have systems in vogue, whereby a government official tours a certain district, inspects the milk products, and advises the farmers of the best methods to pursue in order to obtain the best methods to pursue in order to obtain the best results for their expenditure of capital and labor. Something on the same scale is a vital necessity in Alberta. The system by which the manufacturers pay on a quality basis is an undoubted help, but education is needed more surely still, and until some system is evolved whereby the milk producer is made to see that it is to his advantage to produce the best article only, there is but small hope of Alberta reaching her proper place at the top.

## Tariff Equalization

Repeated efforts have been made by the producers to secure an equalization of the tariff both to and from the States.

Recently, D'Arcy Scott, secretary of the National Dairy Council of Canada went to Washington for the purpose of interviewing Mr. Foreman of tariff fame.

Despite the futility of his mission, D'Arcy Scott is again going to Washington at the behest of the Western Dairy Executive. While in the States, Mr. Scott was in touch with a large number of the most representative men connected with the butter industry, all of whom expressed a desire to see closer trade relations between the two countries, and in particular the men of the Chicago butter trade were very favorably disposed towards Canadians and Canadian butter, and would be glad to see the tariff lowered.

Last year the United States sent Canada 1,142,000 pounds of butter. White 32 cents went from this side. The old Forestry tariff placed an import of eight cents per pound on Canadian butter, while the new Young bill of the same nature sets the charge at six cents, the tariff formerly in vogue being 2 1/2 cents. The duty which we charge American butter is four cents, but the Americans are quite agreeable to reduce their figure to the original amount if we will fall in line.

## Supervision and Education

The scheme which is in vogue in the United States regarding supervision and education might well be emulated here. There, each state is divided up into counties in charge of a County Agent, who is paid by the county, his function being to oversee farming operations generally and to give advice where advice is needed. This agent is a scientist and also a practical man. He knows what is best for the farmer, and he is paid to show him the best methods in vogue.

This system has not with such success that the Federal government is also going to work similar lines; the states have been divided into sections and in each of these a federal officer is on hand to advise the agriculturists, in addition to the county agent.

The agents travel continuously from farm to farm, cows are tested and the unprofitable animals weeded out while special advice is given in regard to the separation of cream and so forth.

In Australia, similar conditions prevail but in addition to advice, there is a rigid inspection of all dairy plants; cows' yards must be swept clean at least once a week, all the cows' barns must have cement floors and be thoroughly whitewashed, and

the cream room must be a certain distance from the cow sheds.

Heavy fines are imposed for any breaches of the dairying act. Although there was at first consider-

able objection to the scheme, Australians have learned that it pays to be scientific and clean, and in the southern continent at the present

What is a  
Recommendation Worth?

That depends very much upon who gives it. For instance, we recommend Ames Holden "Auto-Shoes" as the cheapest mileage you can buy.

And we know a lot about tires. We have to in our business.

Hence our recommendation should carry some weight, apart from the fact that we are benefiting to some extent by your custom.

We know that if you buy once, you will buy again—because you will find that our recommendation saves you money on mileage.

We will give you a guarantee with Ames Holden "Auto-Shoes" to guarantee that you'll get a good mileage and a guarantee which may arise at any time in the life of the tire. And we will set you an adjustment on that basis should necessary arise, without quibble or reluctance. Don't you think that Ames Holden "Auto-Shoes" today if you can.

## The Menace of Bolshevism

During recent months, reference in the press of Canada to the activities of the radical socialist, Bolshevist and Communist movements have not been as frequent as was the case a year or so ago, but this does not mean that the menace to our free British institutions has passed. Notwithstanding the necessities and arduous duties at present imposed on the statesmen of Great Britain because of the troubles in Ireland, the complex problem of world disarray, and the gigantic financial difficulties to be overcome following the war, leaders in government in the Old Country are not overlooking the danger that still threatens from the Bolshevik propaganda.

A committee of the House of Lords, under the chairmanship of the Duke of Northumberland, spent several months of investigation and research into the activities of these revolutionary organizations and in a report recently issued it is stated that there is overwhelming evidence that an International conspiracy exists which aims at the destruction of all existing institutions of government and society, of all religion, of all moral laws, and all property rights, throughout Great Britain, Canada and other Overseas Dominions.

This report sets forth that the main points in the Revolutionary programme are—

(1) The national power of Great Britain and other Allied States is to be broken down by the fomenting of internal revolutions, through appeals to class hatred, and by efforts to obtain greater freedom and privileges for one class of people. Governments which are strong are to be weakened by the introduction of Socialism, which will pave the way to anarchy.

(2) Internationalism is to be taught.

(3) In every possible way influence is to be secured over public officials.

(4) As religion is the oral mainstay of all government, it is to be destroyed.

(5) Property owning is to be rendered impossible—by means of exorbitant taxes, restrictions and taxes, thus bringing about some form of State Socialism or Communism, or Anarchy.

The Communist Party, directed and subsidized from Moscow, exerts its power through magazines and printed matter, inculcating ideas of Red Revolution into the minds of the people, and by a process known as "boiling from within". Communist schools have been established for perverting the young by the teaching of Communism and Atheism. In this connection it is important to note that there are over twenty weekly newspapers in Canada teaching and preaching Socialism and Communism, many of them of the most radical kind.

Despite all his many other duties and responsibilities, David Lloyd George, who is a radical of the same and progressive type, felt impelled recently to sound a word of warning as to the danger that confronts British institutions from this subtle enemy. The British Prime Minister is reported as saying:

"The military danger is over, but there are greater, more insidious, more permanent dangers still remaining—the dangers that have arisen from the new conditions in this and every land, the new ideas that have arisen, the new organizations that have suddenly risen into great powers. What is the peril? It is the phenomenal rise to power of a new party, with new purposes of the most subversive character. It calls itself Labor, but it is really Socialist."

"If anyone doubts the reality of the danger, I would ask him to read the Socialist and Labor papers. We rarely see them, and we do not quite see what they are after, but what they write in these papers is repeated on hundreds and thousands of platforms, to hundreds and thousands and millions of people. And they are beginning to believe it. Socialism is fighting, and you will find it in these papers—to destroy everything that great prophets and leaders labored for generations to build up. Private enterprise, individual effort, the stimulus of reasonable gain, the present organization of commerce, of industry, of credit—all that goes if this new system which is being preached, succeeds. Even the political liberty which is being upheld is being threatened."

The old and tried Labor organizations of Canada and the United States are aware of the danger which threatens and are out combatting it. The business communities are becoming more and more aware of it. It is the average man who loves the little home he has built up by patient effort and self-denial, the man with his quarter or half section of land, the men and women who know that in the public school and the church are to be found the real safeguards and guarantees of personal liberty and real political freedom, should bestir themselves and vigorously oppose this danger to all that is dearest and best in life.

Have you noticed  
how many of your neighbors  
have changed from tea or  
coffee to

## INSTANT POSTUM

The smooth, rich flavor of this cereal beverage appeals to the taste, and it is free from any element of harm. Better nights and brighter mornings usually result from Postum in place of tea or coffee.

"There's a Reason"

## Knew His Name

The Poet Whittier's Dog Was An Intelligent Animal.

During one of the first birthday celebrations of the poet Whittier, he was visited by a celebrated portrait painter. The lady painter asked to sing, and, seating herself at the piano, she began the beautiful ballad, "Robin Adair." She had hardly begun when Mr. Whittier's pet dog came into the room and, seating himself by her side, watched her as if fascinated, and listened with a delight unusual for an animal. When she finished he came and put his paw very gravely into her hand and licked her cheek. "Robin takes that as a tribute to himself," said Mr. Whittier. "He is also a Robin Adair." The dog, hearing his own name, evidently considered that he was the hero of the song. From that moment, during the lady's visit, he was her devoted attendant. He kept by her side when she was indoors, and accompanied her when she went to walk. When she went away, he carried her satchel in his mouth to the gate, and watched her departure with every evidence of distress.—St. Nicholas.

## PAINFUL DIARRHOEA

## CRAMPS IN STOMACH

Mr. Fred Funston, Craik, Saskatchewan, writes: "A young dog just learned to walk with a sudden attack of diarrhoea which completely laid him out, and in a few hours I had to quit work and care for my stomach. I was dreadfully sick, but as I lay in bed I could stand on my feet at times. I was in such great distress. At last I got a chance to send to town for a couple of bottles of Dr. Fowler's Extract and Salvia. I advised him to use it according to the way I felt and soon obtained a great change for the better, for which I was very thankful. I now know what the cause of my sickness was—extreme heat and extreme hot weather and the active work of stroking the wheat."

Several of my neighbors were ill on the same day, but they didn't get any great relief until I advised them to use "Dr. Fowler's" when they soon experienced a great change.

Dr. Fowler's Extract—A. W. Miller, Stratford, Ont., says: "With Stratford there has been on the market for the past 76 years and many cheap imitations are being offered to the public. Be sure and get the genuine put up only by the T. Miltburn Co., Limited, Toronto, Ont. Price, 50c a bottle."

The Chinese are ahead of the world in the preparation of meat for the table. After it has come out of the oven, it is hung in the smoke of various aromatic herbs, which gives it a delicious flavor and robes it of the porky taste which is offensive to some palates.

SUMMER HEAT  
HARD ON BABY

No season of the year is so dangerous to the life of little ones as is the summer. The excessive heat throws the little stomach out of order so quickly that unless proper care is taken the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera infantum, dysentery, tonsillitis, colds, etc., are common, and any one of these troubles may prove deadly if not properly treated. During the summer the mothers' best protection is Baby's Own Tonic and Tablets. These tablets help to sweeten the stomach and keep baby healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brooklyn, Ont.

A Successful Family

He was a young artist, and although a very gifted man, the world had not yet recognized what a man they had amongst them. Still, success was coming his way little by little, and he was proudly telling his life story to a patron.

"A few years ago," he asserted, "I was quite unknown, but now my work is hung on the line!" Then a bitter thought fluttered through his brain, and he added: "So is my wife's!"—London Answers.

Drink Water When Tired.

Dr. Eliza E. Mosher urged lately the members of the Women's Medical Society of New York, to drink a glass of water at 10 a.m. in each of the hours, 3, 4 and 5 p.m. This, she told them, will dilute the products of fatigue which were entering the blood and causing the tired feeling.

Saskatchewan Grain  
Man Found Operation  
Was Not Necessary

"I was doubtful about Tanlac until I tried it myself and now I know it does everything that is claimed for it," said Jacob Popp, well-known and prosperous grain grower of McNutts, Sask.

"I had a bad form of stomach trouble for sixteen years, which was steadily growing worse as time passed.

"I did not eat acid heavy food or pastry and at times I couldn't retain a thing on my stomach, not even a glass of water. I would lose weight like a teip-hammer and I used to have awful pains in my chest as well as in the pit of my stomach. My liver was all out of order and I was bothered at

good deal with headaches. I was in such a bad fix I could scarcely sleep at night or work during the day. In fact, I spent two weeks in the hospital and thought an operation was going to be necessary. Luckily, the operation was deferred and as soon as I left the hospital I began taking Tanlac.

"I can hardly realize that so little medicine could do as much good as Tanlac has for me. Although I took only three bottles, I gained twenty-eight pounds in weight and am eating, sleeping and working better than I have in many years. Tanlac is truly a remarkable medicine."

Tanlac is sold by leading druggists everywhere.

## The Keeping of Poultry

Pamphlet Tells How Poultry Can Be Made to Pay.

If you reside in either town or country and wish to know how best to keep poultry, you will find the most satisfactory results consist in a careful treating of the subject as prepared by the Dominion Poultry Husbandry F. C. Ellwood, and recently issued by the Department of Agriculture at Ottawa.

The pamphlet can be had free on application to the Publications Branch.

It tells of how poultry can be

housed and fed, how they should

be treated in winter and summer, how

to commence keeping in a small way,

the equipment that is desirable, how

to choose a breed, how to hatch and rear, and how to gather, keep, or market the eggs.

In short all the essentials

to success in poultry keeping for home consumption or selling are clearly and explicitly explained.

In the term poultry are included turkeys,

geese, ducks, guineas, fowls and pigeons, the raising and care of which

are fully discussed. Numerous illustrations of types of birds, and of

methods of housing and feeding contri-

bute to make the pamphlet an in-

valuable compendium on poultry

keeping and marketing.

## Unfit To Live—Must Die

This article is intended to be read times every week—no corn can live, it must pass out, drop off, if Purson's Extract is applied to corns and warts.

"Use the old reliable "Put-

ums"! Never fails, 25¢ at all dealers.

The "bigblow" girl was talking "think of it," she said. "Imagine those Spanish pirates going 3,000 miles on a galleon?"

"Yes, dear," said the profiteer wife, "but you can't believe all you hear about those foreign cars!"—London Bits.

Screening the plants from certain effects of sunlight, an English botanist has produced purple nasturtiums, a color heretofore unknown.

Minard's Liniment for Burns, etc.

Salmon skin is about the best waterproof material that can be worn. The Eskimos use it for both shoes and shirts.

Minard's Liniment for Burns, etc.

Salmon skin is about the best waterproof material that can be worn. The Eskimos use it for both shoes and shirts.

## Still Walking

Edward Payson Weston Once Walked 500 Miles In Six Days.

Edward Payson Weston, the pedestrian who was famous a generation ago for his wonderful walking feats, is still Hale and hearty at the age of eighty-two years, as a newspaper paragraph states. Even now he walks three miles daily for his mail and several times a week takes a twelve-mile walk in the neighborhood of his home, Pluckarch, Ulster county, New York, just to keep himself in condition. Weston once walked 500 miles in six days, and 5,000 miles in 100 days—Outlook.

**A Cure for Asthma.** Give Asthma half a chance and it gains ground rapidly. But give it repeated treatments of Dr. J. D. Kellor's Asthma Extract and you will find there is no half way measure about this remedy. It goes right to work and gives prompt relief. It reaches the moist membranes and leaves no place for the trouble to lurk. Have it by you for ready use.

A London policeman is not permitted to marry without the approval of his superior.

Minard's Liniment Relieves Neuralgia

Japan and Newfoundland are the only countries that have put flowers upon their postage stamps. Japan uses the chrysanthemum in the centre of all their stamps and Newfoundland introduces a bouquet of thistle blossoms.

## MONEY ORDERS

The following is sent money by mail to Downton Express Money Order.

## Divergence In Viewpoints Between France and Britain Over Question Of Silesia

London.—The French Government deems it impossible to decide on the holding of a meeting of the Allied Supreme Council until the question of Silesia has been decided.

M. de St. Aulaire, the French ambassador here, called on Lord Curzon, the British foreign minister, and conveyed this information in the name of his Government. The French position is regarded here to indicate a serious divergence in the viewpoints of the two countries. It is stated Lord Curzon merely took the note of M. de St. Aulaire's communication and informed him he would refer the matter to the British cabinet.

When France agreed to a meeting of the Supreme Council in Paris on Aug. 4, it was more or less understood French acquiescence depended either on the question of reinforcements being previously settled or upon its being made the first subject of the agenda of the Council. The communication of M. de St. Aulaire would appear to show that the British Government declines to yield on this point.

## U. S. Reduces Army To 150,000 Men

Congress Refused Funds to Pay  
Greater Force.

Washington.—Reduction of the United States army to a peace-time strength of one hundred and fifty thousand men has been accomplished in accordance with the decision of Congress when it refused to appropriate funds for pay of a greater force after October 1. With the reduction, Secretary Weeks announces there would be a general redistribution of troops, practical arrangement of the great war-time anomalies; placement of men on garrisons on the inactive list, and skeletonization of others into materially reduced strength.

## Circassians Kill Turkish Governor

As a Result British Are Reinforcing  
Dardanelles Garrison.

Constantinople.—Circassian bandits appeared in Karakasha, on the Sea of Marmora, 35 miles east of Galipoli, raided the town and killed the Turkish governor and commandant of the gendarmerie. A British detachment assisted the Turks in pursuing the bandits. As a result of this incident the British are reinforcing the Dardanelles garrison.

**Britain Cancels Government Bonus.**  
London.—The chancellor of the exchequer announced that after September 30 no bonus will be paid to government employees in receipt of salaries over £2,000 a year. He also stated that there would be reduction of 5 per cent. on salaries above £500. He said that £500,000 will be saved by these economies.

**Will Pay Loan Without Borrowing.**  
Ottawa.—Sir Henry Drayton, minister of finance, announced that the \$15,000,000 due in New York on August 1 would be paid without any further government borrowing.

## Turks Are Badly Defeated

Athens.—Information from all sources indicates that the resistance of the Turkish nationalists in Asia Minor is completely broken down. The Greek official news agency declares in a statement, "The Turkish losses in killed, wounded and prisoners to date are estimated at 60,000. The Greeks, the statement says, are constantly pressing the Kemalists along the road to Angora. Along the route of their retreat the Turks set fire to stores of material which they were unable to take with them because of the rapidity of their flight."

## Terrible Experience Of Mountain Climbers

Mrs. Stone Is Rescued After Undergoing Incredible Hardships.

Calgary.—The search party which discovered Mrs. Stone has forwarded meagre details of the accident to the Alpine Club in Banff.

Mrs. Stone, who is not much the worse for her terrible experience, reports that she and Dr. Stone were climbing Mount Eon and Dr. Stone in attempting to make a short cut started up Rock Chimney with Mrs. Stone following him. They were roped together. About half way up the rock on which he was standing gave way, and he plunged over her head to his death on the cliff below.

Mrs. Stone attempted to go down to her husband and became marooned on a narrow ledge of rock about half way down, from which she was unable to move. She remained there for five days without food. The only water she had was from a small stream which trickled down the mountain side at noon when the snow above melted. When discovered Sunday night by a searching party she was in a weakened and exhausted condition but uninjured. A. O. Wheeler, president of the Alpine Club, went up to the camp on Marshall Creek, accompanied by a rescue from Banff.

## Quebec Crop is Fifty Per Cent. Less

Farmers Optimistic Although  
Drought Damaged Hay and  
Cereals.

Quebec.—"I still believe there is a decrease of at least 50 per cent. in the crop of the year," stated Hon. J. E. Caron, minister of agriculture, just returned from an automobile trip on the southern shore where he personally inspected the crops. "Not only hay but cereals are greatly damaged by drought. The potatoes look well and vegetables should be an average crop. I found the farmers were optimistic, however, and they are courageously taking steps to meet the situation." Mr. Caron added that the advice of farmers will keep their dairy cattle with all the food available but it is hoped that the Federal Government will consent to grant a reduction in the freight rates to meet the requirements of the department of agriculture. He received offers from the western provinces to send hay here if needed at a very reasonable price."

## Rainmaker Has Scored

Hatfield Wins Rain Bet With Medicane Hat Distric.

Medicine Hat—Rainmaker Charles M. Hatfield has won his bet with the Medicine Hat United Agricultural Association and he will be paid \$8,000 for rain which has fallen in the district during the past three months.

Hatfield was to receive \$8,000 if four inches of rain fell between May 1 and July 1. Up to Saturday last four and a quarter inches had been recorded and so Hatfield draws the maximum payment, which will be made him at the end of the month.

The association will hold a meeting to determine whether or not the contract shall be renewed for another year. Despite the outcome of the unusual contract which was made with the雨maker, all are not convinced that Hatfield is entitled to take it. It is pointed out that the rainfall did not come at the time it was needed, and further that whenever the rain did come, it was general throughout the west.

Bibles are absolutely prohibited in Russia.

## Wheat Field To Table In Few Hours

Ingersoll, Ont.—A record in which the harvester, the miller and the baker figured, was established a few days ago at Thameford, Ont. On Thursday, at 3 o'clock, wheat was standing in the field. Later in the day it was threshed down with a threshing mill at Thameford and ground into flour. On Friday morning biscuits of excellent quality were made and placed on the table for dinner.

The West Yes, But Water Isn't Water on the Land.

## A Preliminary Estimate Is Now Supplied Of World's Crop Production

### Turk Nationalists Asking For Peace

Resistance In Asia Minor Said To Be Broken.

London.—Mustapha Kemal Pasha, head of the Turkish Nationalist Government, has sent a telegram to Constantinople asking that the Central Government intervene with the Allies in an effort to obtain a cessation of Greco-Turkish hostilities, according to a despatch from Constantinople by the Exchange Telegraph Company.

#### Wipes Out Family

Autos Mailed By Car Being On Wrong Track.

Cleveland.—Five persons were killed, four of them almost instantly, when a car on the Alhambra Avenue viaduct and an automobile crashed head on. One family was wiped out when John M. Franey, 40, a garage owner, his wife, 37, and their two children, were killed. Each of the dead suffered a fractured skull.

The cause of the accident, according to the police, was the operation of a shrill car east on a westbound track, the eastbound track being under repair. The motorists were westbound and when they saw the street car on the westbound track, they apparently thought it was traveling in the same direction as their automobile.

### Courts Intervene In Military Execution

Say Sinn Feiners Should Have Been  
Tried By Court Martial.

Dublin.—An important judgment was delivered in the chancery division when the master of the rolls ordered a writ of habeas corpus, returnable against General Sir Neville Macready, commander of the British troops in Ireland; Maj.-Gen. Sir Edward Strickland, divisional commander, and others, in the case of John Egan, sentenced to death by a military court at Limerick in June for having ammunition in his possession.

In a long judgment the master of the rolls has decided that Egan should have been tried by court martial under the Restoration of Order under the claim of the military authorities that the existence of the state of insurrection justified them in overriding legislation seemed to him to call for a new bill of rights. There were considerations more important than the temporary duration of an insurrection. Among them were the eternal principles of justice, which could not be violated with detriment to the interest and feeling of a civilized community.

### Says Father Was Swindler

Daughter of Bank President Adminises  
Knowledge of Alleged Theft.

Chicago.—Vivian Sprung, daughter of Ward E. Sprung, missing president of the closed Michigan Avenue Trust Company, who, with her mother, returned to Chicago from Detroit, where they fled following his daughter's disappearance, has admitted that she had knowledge that her father had taken more than \$300,000 of the bank's money before he fled, it was announced by James E. McShane, assistant state attorney.

### To Help Unemployed.

Toronto.—The board of control has passed a resolution moved by Mayor Church, that in view of the large amount of unemployment in the city, instructions be given to the heads of departments to remove from the pay rolls those who are occupying dual positions or those occupying positions in the city's employ and receiving a pension at the same time.

Patronize your local merchant and thereby help to build up your home town and community.

Ottawa.—A cablegram received from the International Institute of Agriculture gives the following preliminary estimates of crop production for 1921, corresponding figures for last year being given in parentheses:

Wheat—Spain, 143,000,000 bushels (135,500,000); Hungary, 41,887,000 bushels (29,149,000).

The total production of these two countries, and including Bulgaria, Greece, Canada (42,620,000), United States, India, Japan, Algeria, Morocco, and Tunis, is 1,712,000,000 bushels.

This great total production is up 6 per cent. for the two previous years.

Rye—Spain, 27,254,000 bushels (27,831,000); Hungary, 18,938,000 bushels (16,530,000).

The total production of these two countries and including Bulgaria, Belgium, Finland, Alsace-Lorraine, Greece, Canada and the United States, 17,293,000 bushels (16,485,000).

Barley—Spain, 92,180,000 bushels (90,630,000); Japan, 89,287,000 bushels (82,210,000).

The total production of barley for the same countries as wheat, but excluding Hungary and India, is 532,349,000 bushels (531,738,000).

Oats—Spain, 32,500,000 bushels (35,550,000).

The total production, including Bulgaria, Finland, Alsace-Lorraine, Greece, Canada (30,790,700), United States, Algeria and Tunis, is 1,828,000,000 bushels (2,142,000,000).

The grand total for wheat, rye, barley and oats, taken together, is 4,255,000,000 bushels compared with 4,368,000,000 bushels last year, a decrease of 316,000,000.

Charge \$240 For Privilege of Viewing Prospective Homes.

Toronto.—That some landlords are asking prospective tenants the price of \$2 for the privilege of looking at houses and apartments prior to renting them, is the complaint contained in a letter received by a local newspaper. A few days ago a man in the west end of the city asked a real estate agent whether he could take a look at a certain apartment. He was told \$2 admission fee.

"I will be giving money in case I do not take the place," he asked.

"No" was the answer.

"But in case I like the looks of the apartment can I deduct \$2 from the first month's rent?" he said next.

"I charge you the \$2 to look at the place," said the agent. "It has nothing to do with the rent."

The indignant correspondent asks,

"What will be the next ingenuity of profiteering?"

## Harvesters From B. C.

First Contingent Will Not Leave Until August 13.

Vancouver.—British Columbia will send every able-bodied man who wants to go to the prairie harvest fields this year. It is expected that a great number will take advantage of the reduced fares.

The provincial employment bureau, however, advises that none will be sent out after August 13, which date the first contingent will go forward on the regular railroad line from Vancouver, and daily thereafter until requirements are filled.

Russians Fire On German Boats.

Oslo.—The German gunnery school fleet which has been operating in the Kola Bight on the Northern Russian coast, is reported in a special despatch from Varde, Norway, to have been fired on by Russian land forces. The German fleet returned the fire but no damage was done on either side.

U. S. Parcel Post System Loss.

Washington.—The parcel post system is being conducted at an annual loss to the government of approximately \$40,000,000 a year, Commissioner Stevenson, chairman of the house committee on post offices and post rates, states.

## AROUND THE TOWN

The W. C. T. U. will hold their regular meeting at the home of Mrs. Harry Mathews, on the second Thursday of the month. All ladies are cordially invited to attend.

Mr. H. H. Marshall who has been staying with Miss M. A. Ferguson and her old friends in the district for a few days, leaves for his home at Medicine Hat on Thursday.

Mr. and Mrs. Watts and two children are visiting Mrs. Watts sister, Mrs. D. Edwards. Mrs. Watts returned to Edmonton on Sunday, while Mrs. Watts and children will stay a few days.

Mr. Alex McNaughton left for Greenville, Ont., east of Ottawa last week. He received a telegram stating that his only brother was very ill. Mr. Roy McNaughton is looking after the interests of the Westdale Municipality during his absence.

Remember the Fair dates—Aug. 23rd and 24th.

The Taxis Boys left on Wednesday for a few days camping expedition at Sylvan Lake under the charge of Mr. Will Miller. The boys who are in the party are as follows: Russell Bertsch, Arthur Reiber, Lloyd Bonner, Colin Campbell, Tom Reed, Orval Geiger, Elmer Evans, Elwood Evans, Walter Herman, Ray Herman, and Eddie Hohn.

Obtain your membership to the Agricultural Society from J. V. Bertsch, Geo. Wrigglesworth or any of the directors of the Society.

A meeting was held in Mr. J. V. Bertsch's store on Friday evening for the purpose of arranging sports for Fair Day. The following committee were formed: J. A. McGhee, Chairman and C. E. Reiber was selected Secy. Treas. Finance Committee; J. W. Phillipson, W. G. Liesemer, Bushnell Committee; Harold Clemens, Bert Fisher, Children's

Sports; J. W. Phillipson, A. E. Ryan, Horse Shoe Committee; Lee Sandeman, N. E. Singleton, Horse Riding, Dave Simola, Dr. Malina, Inspector Committee; J. V. Bertsch, J. H. Lovrien, Advertising Committee; Geo. Wrigglesworth, C. E. Reiber. The meeting then adjourned after setting August 5th as the date of their next gathering.

DIDSURY FAIR is one of the best in the Province—be sure to attend it.

## WHO STOLE THE BEER

Constable Naylor of the Provincial Police, a constable of the R. N. W. M. P. and constable Sick made a clean-up in town on Saturday of the beer cans and succeeded in getting one or two suspicious looking samples of the stuff that is causing so much heartburning amongst the temperance forces. One barrel was taken to the town lock-up and with due formality was sealed and supposedly safely locked up with all due precaution by the constables.

On Monday morning Const. Sick in making his rounds and calling at the lock-up found that some poor thirsty individuals had forced their way into the building and the beer was gone. No doubt the warm day on Sunday with the heavy thunder-storm at night induced an extreme thirst which caused them to take big chances.

## CUT OF 50 PER CENT IN PRICE OF ALL CANDIES BY STORES IN UNITED STATES

NEW YORK, July 31.—A cut of approximately 50 percent in the price of all candy, from gumballs to bonbons, was announced today by a chain of candy stores, following a general agitation against the prices of ice cream, cold drinks and confectionery. Benjamin Miller, one of the company officials, made public a memorandum which had been sent to the National Confectioners' Association. It said: "It's time we got down to reason in this matter. We have been making not 100 but 300 percent profit for a long time. This kind of business, if kept up would cause a panic."

## The Quickness of the Hand

"...complained the Scotch professor to his students, 'ye dinna use your faculties of observation. Ye dinna use them. For instance—'

Picking up a jar of chemicals of vile odor, he stuck one finger into it and then into his mouth.

"Taste it, gentlemen," he commanded as he passed the vessel from student to student.

After each one had licked his finger and felt rebellion through his whole soul, the old professor exclaimed triumphantly:

"I told ye so. Ye dinna use your faculties. For if ye had observed ye would have seen that the finger I stuck into the jar was the finger I stuck into my mouth."

FOR SALE.—Beatrice Separator, ton lbs. capacity, complete, practically new, cost \$100. First \$75. takes it. Apply Ernest A. Olsen, S. E. 16-32-5-5, 3 miles north of Sundre.

FOR SALE.—Quarter section hay on northwest quarter of 24-31-27, W. W. 1. Apply D. L. Milne, care of Matt Saunders R. R. 2 Didsbury.

Two very pretty girls met on the street and kissed each other rapturously. Two young men watched the meeting. "There's another of those things that are so unfair," said one.

"What is that?" asked his friend.

He pointed to the scene: "Women doing men's work."

## Holiday Time—

Freedom from all aches and pains assured by

Templeton's

Rheumatic Capsules!

Keep them in your home. Take them on your vacation! For Rheumatism, Neuralgia, Headache, Train Sickness, Etc.

\$1.00 per box of 100 capsules.

A. A. BIERNES, Local Agent.

## Best Butter, Etc.

Continued from page 3

time, the dairy farmers compose the most prosperous class in the community, while Australian butter has a reputation which is hard to exceed.

## Science of Production

New Zealand is even more rigid than Australia in all that pertains to the science of butter production, and Albertans have good cause to know what this means. The British Columbia market is ours by right and title, if we but exert ourselves to hold it, but it cannot be retained with shipments of second and third class butter.

The issue is a very live and real one, and unless some effort is made to improve the quality of cream this summer, no doubt whatever exists but that Alberta will have a quantity of butter on hand that cannot be sold at any price.

The manufacturers and the real farmers are thoroughly alive to the situation and it should be the duty of every good Albertan to hammer home the slogan of "Poor cream means poor price"—Edmonton Journal.

The greatest incentive for better live stock and farm products—friendly competition with your neighbors at your local Fair.

## SIEBERTS AND MAYTON MISSION

Services—Sieberts Church, S. S. at 10:30 a.m. every alternate Sunday. Divine Service 11:30 a.m. every alternate Sunday.
